Cc: Joanne Sterling <jsterling@rcn.com>

The Peaks Island COVID 19 Response Committee is trying to create the capacity to make sure our more vulnerable neighbors get the information and assistance they need during the pandemic.

To start, we are creating a list of folks who perhaps are elderly, live alone, shut-ins, not connected to the internet, etc., who we all should be looking out for.

If you know of such folks here on Peaks that should be included, please send their name, street address, email address (if they have one), phone number, and a brief description of their situation to **Joanne Sterling at jsterling@rcn.com or call Joanne at 617-838-0078.**

Related to this, please keep in mind and remind your more vulnerable neighbors of the need to call 911 for emergencies instead of the the local police headquarters here on Peaks. We have been informed that this will enable virus related calls to be noted and enable first responders to arrive with appropriate protective gear.

And be sure to keep yourself safe as you are helping those in need. These are unprecedented times. Working together, we can help our community through this.

Thank you for your efforts.
