

Peaks COVID-19 Response Committee Updates and Bulletins

Seeking Shopping Helpers for Our Vulnerable Neighbors

Some neighbors have already begun to shop for community members who are especially vulnerable to COVID-19. We applaud your efforts and thank you for supporting our community!

There are other vulnerable community members who are still looking for help with their grocery shopping so that they can stay safely at home.

We are working to establish a Peaks Island community program called "Shopping Helpers." Volunteers will work directly with an at-risk community member to coordinate periodic shopping trips to Hannigan's. Shopping volunteers will use "curbside delivery," collecting payment and delivering groceries without coming into direct contact with vulnerable neighbors.

If you are interested in becoming a shopping helper, or you need help with grocery shopping, please contact Betsey Remage-Healey at 207-622-2084 or by email at remagehealey@gmail.com .

We are simply "match makers." Contact information will be shared between paired neighbors so that they can work out the details of their shopping relationship on their own.

If you would like to receive Peaks COVID 19 Response Committee and PIC updates directly in your email box, please send an email to randyschaeffer@gmail.com with "subscribe" in the subject line.
