

## Peaks COVID-19 Response Committee Updates and Bulletins

### **Face Masks to be Distributed Friday 11am to Noon**

Homemade cloth face masks will again be distributed from the shed in the Saint Christopher's Church parking lot between 11am and noon.

Masks will be distributed based on one for each household member until the inventory is gone.

### **Why Wear a Face Mask?**

According to the CDC, the use of face masks is recommended when social distancing is difficult as a means of helping prevent the spread of COVID 19.

Help keep the grocery store open. Help keep the ferry running. Be safer at work. Help keep the courageous folks who provide essential services to our island community healthy. Help protect each other. Help protect yourself.

### **How You Can Help**

More face masks are needed. Hopefully, everyone who recognizes the value of this precautionary measure and wants a face mask, will have one.

If you are making masks, please call Fred O'Keefe at 766 2300 to make arrangements to drop your masks off at the shed. Please do not leave the masks out in the elements.

The CDC provides simple directions for making masks, with or without the use of a sewing machine [HERE](#)

**Thank you very much.**
